A community dedicated to the identification and creation of legal mecanisms used for the commons

Develop the solidarity between activists and grow as a movement of commoners

Back to the definition of the commons

**Bring about the common vocabulary
and the dialog between different cultures of the commons**

Inspired by C. Hess, Mapping the new commons

Motivation	Concerns
Proctect a shared resource	Who is the owner ?
Observe or act of peer production or masssive coillaboration	Participate and share in P2P first
Evidence of new tragedies of the commons	Work on rules and normes commons based
Desire of culture and education commons based	Re-built the narrative commons based
Identification of new or evolving in traditional commons	Extend the commons
Re-discover the commons	Romantic approach

Semantic Web

Connect the databases documenting the commons
Connect the commons databases with mainstream web

Influence the web and the people

Digital Library

of the commons

Indiana University
